

## **PFAS CERTIFICATE - BX-Bio**

The TSCA (Toxic Substances Control Act of 1976) regulation requires companies to restrict and remove substances from products to maintain U.S. market access. Six chemical substances receive special attention under TSCA: PCBs, asbestos, radon, lead, mercury, and formaldehyde.

According to the information given by our raw material suppliers and the knowledge we have about our process, our products do not contain any of the chemical substances listed by the TSCA as intentionally added ingredients (NIAS).

European packaging waste directives: We assure that the total amount of heavy metals (Cadmium, Mercury, Lead and Chromium VI) contained in all our product references is below 100 p.p.m. as the European Directive on Packaging and Packaging Waste Regulation 1994/62/EC and the modification Directive 2004/12/EC require. Our product packaging does not present toxic or hazardous chemical substances or materials concerning the requirements of 1994/62/EC.

Conflict materials: No conflict materials such as tin, tungsten, tantalum and gold are used in the manufacture of our products.

California Proposition 65:

None of the products listed on the California Proposition 65 is used in the manufacturing process of our products as intentionally added ingredients.

Xinjiang Province: No products with origin in Xinjiang province from China are supplied by any of our raw material suppliers. All our products are exempt of such material origin.

Bisphenol A/B and Phthalates: No Polycyclic Aromatic Hydrocarbons (PAH), Fluoropolymers, Bisphenol A/B, Brominated flame retardants, Di-isobutylphthalate (DOBP) or Phthalate plasticisers are used in the manufacture of our products as intentionally added ingredients.

Nanoparticles: No nanoparticle size materials are used in the manufacture of our products

PFAS: No Perfluoroalkyl and Polyfluoroalkyl (PFAS) substances are included in the composition of the products manufactured as intentionally added ingredients (NIAS). No fluorinated compounds are used in our manufacturing process.

Our product BX-Bio is a Biodegradable POF shrink film including home compostable and does not contain any kind of PFAS, WRP14, WRP16 and malicious content
