OUR PRODUCT RANGE

POF SHRINK FILMS

GENERAL POF SHRINK FILMS

BX-Ultra[®]

Cross Linked POF Shrink Film

Thickness: 40, 45, 60, 75, 100, 120, 150 Gauge (10, 11, 15, 19, 25, 30, 38 μm)

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, tinted, hot perforated options available.

BX-505[®]

Non-Cross Linked POF Shrink Film

Thickness: 50, 60, 75, 100, 120 Gauge (12, 15, 19, 20, 30 μm)

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, tinted, hot perforated options available.

SPECIAL POF SHRINK FILMS

BX-UltraFresh[®]

Antifog POF Shrink Film

Available: Cross Linked Technology

Thickness: 45, 60, 75 Gauge (11, 15, 19 Micron)

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, tinted, hot perforated options available.

BX-Opaque[®]

Opaque POF Shrink Film

Available: Cross Linked & Non-Cross Linked Technology

Thickness: 100, 150 Gauge (25, 37 Micron)

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, hot perforated options available.

BX-UltraSoft[®]

Low Energy POF Shrink Film

Available: Cross Linked & Non-Cross Linked Technology.

Thickness: 40, 45, 60, 75 Gauge (10, 11, 15, 19 Micron)

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, tinted, hot perforated options available.

BX-777[®]

Hot Slip POF Shrink Film

Available: Cross Linked & Non-Cross Linked Technology.

Thickness: 40, 45, 60, 75, 100, 120, 150 Gauge (10, 11, 15, 19, 20, 30, 38 Micron)

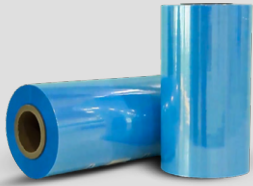

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, tinted, hot perforated options available.

POF SHRINK FILMS

BX-Tinted[®]

Tinted POF Shrink Film

Available: Cross Linked & Non-Cross Linked Technology.

Thickness: 200, 300 Gauge (50, 75 Micron)

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, tinted, hot perforated options available.

BX-Printed[®]

Printed POF Shrink Film

Available: Cross Linked & Non-Cross Linked Technology.

Thickness: 40, 45, 60, 75, 100, 120, 150 Gauge (10, 11, 15, 19, 20, 30, 38 Micron)

Width: 3" to 50" in 0.5" increments (Single Wound)

Tinted, hot perforated options available.

BX-Tough[®]

Heavy Gauge POF Shrink Film

Available: Cross Linked & Non-Cross Linked Technology.

Thickness: 200, 300 Gauge (50, 75 Micron)

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, tinted, hot perforated options available.

SUSTAINABLE CHOICES

BX-Earth[®]

Recycled POF Shrink Film

Available: Cross Linked & Non-Cross Linked Technology.

Thickness: 40, 45, 60, 75, 100, 120, 150 Gauge (10, 11, 15, 19, 20, 30, 38 Micron)

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, tinted, hot perforated options available.

BX-Bio[®]

Biodegradable POF Shrink Film

Available: Cross Linked & Non-Cross Linked Technology.

Thickness: 50, 60, 75, 100 Gauge (12, 15, 19, 25 Micron)

Width: 3" to 50" in 0.5" increments (Single Wound)

Printed, tinted, hot perforated options available.

TEAR TAPES

EzeeTear®

Standard Cigarette Tear Tape

Backing: MOPP
Adhesive: Water-based Acrylic
Thickness: 23, 26 and 40 µm
Width: 1.5mm to 4mm
Length: 5,000m to 120,000m

EzeeTear® LITE

Cigarette Tear Tape with HTPP Backing

Backing: HTPP
Adhesive: Water-based Acrylic
Thickness: 23, 26 and 40 µm
Width: 1.5mm to 4mm
Length: 5,000m to 120,000m

EzeeTear® CHROME

Holographic Cigarette Tear Tape

Backing: MOPP
Adhesive: Water-based Acrylic
Thickness: 23, 26 and 40 µm
Width: 1.5mm to 4mm
Length: 5,000m to 120,000m

EzeeRip®

Standard Carton Tear Tape

Backing: MOPP
Adhesive: Water-based Acrylic
Thickness: 40, 50, 60, 75, 90, 125 µm
Width: 3mm to 25mm
Length: 5,000m to 120,000m

EzeeRip® PLUS

Carton Tear Tape with HTPP Backing

Backing: HTPP
Adhesive: Water-based Acrylic
Thickness: 60 µm
Width: 3mm to 25mm
Length: Upto 40km

EzeeRip® PROTECT

Carton Tear Tape for Enhanced Box Strength

Backing: MOPP
Adhesive: Water-based Acrylic
Thickness: 40, 50, 60, 75, 90, 125 µm
Width: 1.5mm to 4mm
Length: 5,000m to 120,000m

SUSTAINABLE CHOICES

EkoTear®

Cigarette Tear Tape with PCR Content

Backing: rPET
Adhesive: Water-based Acrylic
Thickness: 23µm
Width: 1.5mm to 4mm
Length: 5,000m to 120,000m

EkoRip®

Paper-Based Recyclable Carton Tear Tape

Backing: Certified-FSC™ Paper
Adhesive: Synthetic Rubber
Thickness: 120, 150 g/m2
Width: 3mm to 25mm
Length: 5,000m to 120,000m

INDUSTRIAL TAPES

Filament Tapes

High-strength tapes reinforced with fiberglass filaments for heavy-duty bundling and packaging.

Applications:

- Box reinforcement
- Pallet securing
- Appliance packaging.

SecureSTRAP[®]

Strapping Tapes

Strong, pressure-sensitive tapes used for securing loads and bundling materials.

Applications:

- Carton sealing
- Bundling pipes
- Securing pallets

Colors:

Duct Tapes

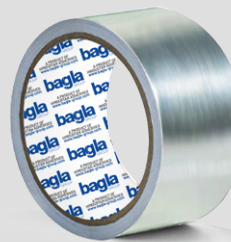

Versatile, cloth-backed, and waterproof tapes for general-purpose repairs and sealing.

Applications:

- HVAC duct sealing
- Temporary repairs
- Bundling

Aluminum Foil Tapes

Heat-resistant tapes with strong adhesion for insulation and sealing applications.

Applications:

- HVAC ductwork sealing
- Thermal insulation
- EMI/RFI shielding.

Masking Tapes

Easy-to-remove, paper-backed tapes for painting and surface protection.

Applications:

- Painting
- Surface masking
- Light bundling

Double-Sided Tapes

Adhesive on both sides for mounting, bonding, and fastening applications.

Applications:

- Carpet installation
- Signage mounting
- Industrial bonding.

PACKAGING TAPES

BOPP TAPES

BOPP Acrylic Tapes

Clear or brown tapes with acrylic adhesive for long-term sealing and durability.

Applications:

- Carton sealing
- General packaging
- Lightweight bundling

BOPP Hotmelt Tapes

High-tack tapes with hotmelt adhesive for strong, quick bonding.

Applications:

- High-speed carton sealing
- E-commerce packaging
- Logistics

BOPP Solvent Tapes

Heavy-duty tapes with solvent-based adhesive for extreme conditions.

Applications:

- Export packaging
- Humid/cold storage sealing
- Heavy-duty cartons

FLEXO PRINTABLE TAPES

Ezee Print[®]

Directly Printable Acrylic (DPA) tape designed for seamless, high-quality printing directly on flexographic printing machines. It enables a superior, one-step printing process without the need for corona treatment, primer, or release coating.

Coro Print[®]

Printable acrylic tape designed for printers using corona treatment before flexographic printing. Its flame-treated film strengthens the bond between adhesive & film, preventing adhesive transfer to the opposite side. Also, there is no adhesive decay over time resulting in high-quality print every time.

PACKAGING TAPES

PAPER PACKAGING TAPES

EkoPaper®

Eco-friendly and FSC certified semi-creme paper tape with strong adhesion for sustainable packaging.

Applications:

- Carton sealing
- Eco-friendly packaging
- Light bundling

Kraft Paper Tapes

Eco-friendly, strong adhesive tape made from kraft paper for sustainable and secure packaging

Applications:

- Carton sealing
- Eco-friendly packaging
- Bundling lightweight items

Reinforced WAT®

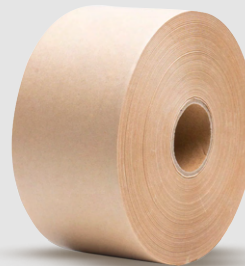

A heavy-duty kraft tape with fiberglass reinforcement and water-activated adhesive for tamper-proof sealing.

Applications:

- Securing heavy cartons
- Export packaging
- E-commerce shipments

Non-reinforced Water Activated Tapes

Appropriate for light-duty shipping, non-reinforced water activated tape rips easily and is highly sustainable option.

Applications:

- Lightweight carton sealing
- Sustainable packaging
- Branding with custom prints

RECYCLED PET TAPES

EkoPET®

Recycled PET Tapes

Made from 90% post-consumer recycled (PCR) content, EkoPET is designed to provide the strength and durability of traditional PET tape, along with promoting the concept of circular economy.
