

WrapTek SSF is designed to overwrap fresh poultry & meat presented in trays. Unlike conventional stretch film, it is stretched over the tray & then shrinks tight to the product on the sealing plate forming a hermetic, leak-proof pack with a crystal-clear, wrinkle-free finish. The result is no liquid seepage, lower contamination risk, strong shelf appeal & dependable performance at high-speed tray packing speeds.

KEY FEATURES

- Dual Stretch & Shrink Action:** Stretches over the tray, then shrinks tightly to the product contour on the hot plate.
- Hermetic, Leak-Proof Seals:** A totally sealed longitudinal bottom seal plus a transversal end seal.
- High Gloss With Anti-Fog Performance:** Keeps the film clear over moist, refrigerated product.
- Superior Thermal Resistance:** For easy handling and stable running at high line speeds.
- High Elasticity & Impact Resistance:** Protect the pack and contents during handling.
- Broad Machine Compatibility:** Suitable for all standard tray overwrappers.

APPLICATIONS

PRIMARY APPLICATION

Fresh Poultry in Trays

Whole birds and portioned cuts - breast, thigh, drumsticks and wings - presented on foam or pulp trays.

ALSO SUITABLE FOR:

Fresh meat
with or without
bones

Processed
meat products
& snacks

Fish &
Seafood

STANDARD PUT-UPS

Format:	Single-wound film
Core Widths:	76.2mm (3") and 153mm (6")
Thickness:	15µm and 21µm
Roll Length:	up to 2,670m (15µm) / 1,900m (21µm)

**Different printable options available on request.*

TECHNICAL SPECIFICATIONS

Properties	Unit	15µ	21µ
Gloss	%	115	115
Haze	%	3.5	4
Shrinkage at 93°C	%	25	23
Shrinkage at 120°C	%	75	70
Elongation at break	%	140	150
Seal strength at 130°C	N/30 mm	30	32
Water vapour transmission rate	g/m ² /24h, 38°C, 100% RH	21	17
O ₂ permeability	cm ³ /m ² /24h-bar, 23°C, 0% RH	16,000	13,000
Roll length	m	2,670	1,900

**Typical values, given as a guide and not as a limiting specification. Performance may vary with processing conditions; confirm suitability for your application. Properties subject to change without notice.*

KEY BENEFITS

- **Stronger Shelf Appeal:** Bright, glossy, fog-free, tight-to-product packs raise perceived freshness and quality.
- **Cleaner, Safer Retail:** Hermetic seals contain purge and reduce cross-contamination on the shelf.
- **Higher Line Throughput:** Thermal stability and easy handling support high-speed tray packing.
- **Hygienic Display:** Thin but strong seals keep shelves and packs clean.
- **Food-Contact Confidence:** Complies with applicable EC and USA food-contact regulations.
- **Less Product Loss:** Leak-proof seals and impact resistance protect pack and product through the supply chain.

COMPLIANCE, CERTIFICATIONS & TRACEABILITY

Food-Contact Compliance: Complies with applicable ec and usa food-contact regulations. A declaration of compliance, with full conditions of use, is available on request.

Traceability: Materials and finished product are fully traceable across every stage raw material, production and shipment under Bagla Group's secured quality standards.

Certifications: Manufactured under the BRC/IOP food-safety standard (British Retail Consortium / Institute of Packaging).
